Delivers a long term
framework for managing
woodlands

Enhanced customer service

Have **you** got **woodlands** in **Wales** that you want to **manage**?

Then we can help. We've launched a new grant scheme called **Better Woodlands for Wales**. It's tailor-made to support good woodland management in Welsh woodlands and replaces the old Woodland Grant Scheme.

“Grants and support for creating and improving woodlands.”

Better support for woodland owners

The new scheme offers more grants for managing woodlands and there are other benefits such as access to professional help and improved service. If you decide to join the scheme you will get a management plan which you can use to meet the challenges of managing your woodlands in the 21st Century. The plan will identify work and what grant-aid we can offer you.

The really good news is that you don't have to fill in any forms. We'll provide you with grant-aid to help cover the cost of using a Management Planner to work on your behalf. All Planners have been selected by us to ensure that they are capable of providing the service required. They'll make an application on your behalf and prepare the management plan.
