

Godinton House

Godinton House & Gardens are situated near to Junction 9 off of the M20, with free parking directly next to the workshop in Swinford Court. Over night camping is available by pre-booking if required at £6 per night, per pitch. Free light refreshments will also be provided throughout the day.

Sparkes Gill Wood

This year, only the coppicing course will be held at Sparkes Gill Wood, which is situated in Rolvenden just off the A28. The wood itself became a Tree Warden 'adopted site' in 2008 for its excellent conservation value & volunteer opportunities. There is free road side parking at this beautiful ancient woodland venue.

Courses & Tutors

All of the courses are tutored by experienced coppice craftsman & artist Alan Sage, except for the Bow Making course which will be co-tutored by bowyer David Sinfield. All of the tools & materials required will be provided & are included within the course fee. But please do bring along any old & interesting tools or items you may have, or wish to use. All of the courses are suitable for complete beginners or those with some previous experience who are looking to improve their skills & knowledge further. Class sizes are deliberately kept small in order for you to receive more one to one, personal tuition.

Tailored Courses

Many other courses are available upon request or they can be individually tailored to suit your organisation, school or groups needs. I can also arrange one to one tuition for individuals if required. Please contact me to discuss your specific requirements in greater detail.

Booking Form
